

Tip #3

Remotely access
your thermostat for greater
convenience and comfort.

VO: You don't need to be at home to ensure your home is comfortable. The Infinity System Control can manage humidity levels, airflow, ventilation, indoor air quality and up to 8 zones, from wherever you are, with a connected smartphone or tablet. Simply download the Carrier Home app to get started. Headed out of town for summer vacation? Program your thermostat before you leave, so you can easily adjust your home's temperature with confidence from virtually anywhere.
