

YOU CREATE THE COZY.
WE'LL PROVIDE THE WARMTH.

Turn to the experts

HEALTHYHOMES

Turn to Carrier for quiet, efficient heating you can depend on all winter.

When you're spending more time in your home, you want your indoor air to be comfortable and healthier. That's why we offer a range of innovative heating solutions that not only deliver quiet, efficient warmth, but can also be paired with our Infinity® air purifier for advanced filtration that can inactivate airborne coronavirus trapped in the filter.* So you can enjoy home comfort and peace of mind.

*The Infinity Air Purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Infinity Air Purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Airborne particles must flow through your HVAC system and be trapped by the Infinity filter to be inactivated at 99%.
