

WHATEVER

time you spend at home,

MAKE IT HEALTHIER.

With its Capture and Kills® technology, the Bryant® Evolution™ air purifier features an advanced filter that can inactivate 99% of select airborne bacteria and viruses it traps from the air flowing through your HVAC system, including coronavirus.¹

Inactivates 99% of select airborne pathogens trapped on the filter.¹

Removes 95% of dust, pollen, pet dander and other air impurities.²

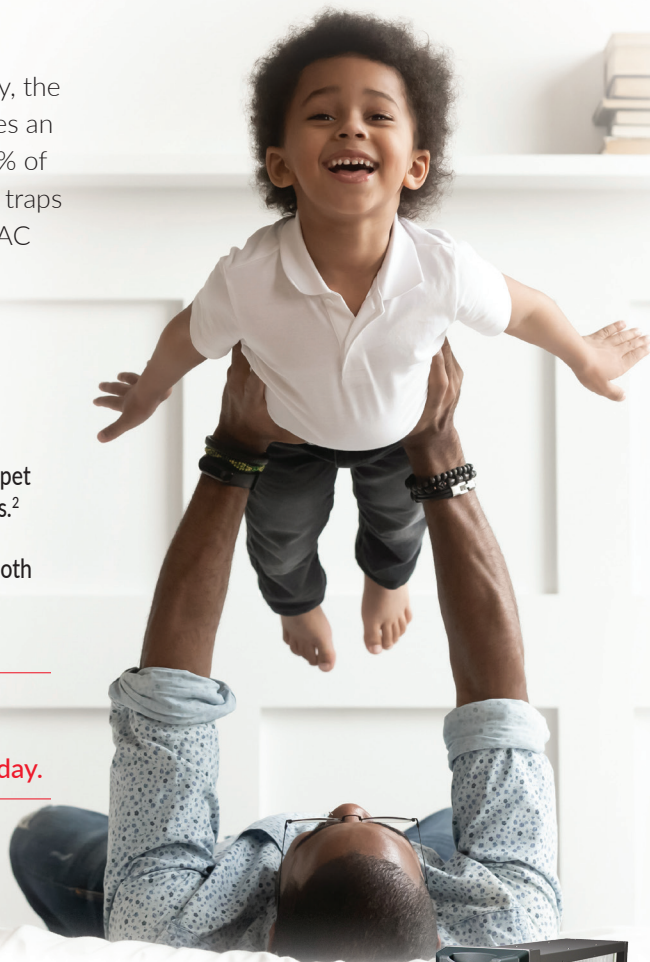

Helps improve air quality for both asthma and allergy sufferers.

To learn how you can convert your home to a healthier home, **schedule an appointment today.**

Bryant. Whatever It Takes.®

Evolution™ Air Purifier

©2021 Carrier. All Rights Reserved. ¹The Evolution Air Purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Evolution Air Purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Third-party testing (2012, 2007) also shows ≥99% inactivation for the type of virus that causes common colds, Streptococcus pyogenes and human influenza. Airborne particles must flow through your HVAC system and be trapped by the Infinity filter to be inactivated at 99%. [Learn how it works at bryant.com/purifier](http://bryant.com/purifier). ²Based on third-party testing (2012) showing 95% of particles size 1.0 to 3.0 microns captured.
