YOU'LL ENJOY HEALTHIER AIR.

**bryant**  
Heating & Cooling Systems®

---

## Healthier home air with Bryant® indoor air quality products.

Your home's air can be up to five times more polluted than outside air.<sup>1</sup>

**Air Purifier** – Inactivates 99% of select airborne pathogens trapped on the filter, including coronavirus.<sup>2</sup>

**Ventilator** – Brings fresh air into your home without common indoor impurities.

**UV Lights** – Help prevent mold and bacteria from growing on your system's cooling coil.

**Humidity Control** – Balance humidity levels inside your home, to help prevent environments where mold and bacteria grow.

©2020 Carrier. All Rights Reserved. <sup>1</sup>According to the EPA (<https://www.epa.gov/report-environment/indoor-air-quality>). <sup>2</sup>The Evolution Air Purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Evolution Air Purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Third-party testing (2012, 2007) also shows ≥99% inactivation for the type of virus that causes common colds, Streptococcus pyogenes and human influenza. Airborne particles must flow through your HVAC system and be trapped by the Infinity filter to be inactivated at 99%. [Learn how it works at bryant.com/purifier](http://bryant.com/purifier).
